610 lbs. (277 kg)

MAX EXERCISE WEIGHT
540 lbs (245 kg)

MAX STORAGE CAPACITY
1800 lbs (816 kg)

OLYMPIC BAR WEIGHT
25 lbs (11kg)

FEATURES

- During the assembly process, the Dual Angle Smith can be configured either in a vertical orientation or with a 7-degree angle
- The CF-3755 employs TPU covered rack outs for silent racking and protection of bar
- During assembly, the columns of the CF-3755 can be flipped to position the rack-outs facing rearward, offering four setup options. This flexibility allows customers to choose their preferred orientation for bar engagement/disengagement with the rack-outs
- The safety stop mechanism has been streamlined for enhanced simplicity. Users can swivel it outward or inward, slide it vertically to the desired position, and then swivel it back into place on top of the rack-out
