NAUTILUS

Shoulder Chest

The Nautilus HumanSport Shoulder Chest delivers multidirectional pushing power through cable-based shoulder and chest training. With options for horizontal, incline, decline, and rotational press patterns, this unit adapts to the user's strength goals in both seated and standing positions—making it a versatile and accessible solution for functional training zones.

WHEELCHAIR ACCESSIBLE
2:1 cable ratio for low starting resistance
Fold away seat to allow for wheelchair access
Accessory handles are optimally placed for easy access while in the seated position
Weight stack utilizes LockNLoad switch technology for quick and easy weight selection even while seated

PRODUCT DIMENSIONS	
Width	63 in (160 cm)
Length	45 in (114 cm)
Height	64 in (163 cm)
Stack Weight	2x 88 lbs (2x 40 kg)
Overall Weight	655 lbs (298 kg)
ADJUSTMENTS & MOVEMENTS	
User defined range of motion	Yes, multiple chest pressing motions including horizontal press, incline and decline press, chest fly and rotational press. Multiple shoulder pressing motions including frontal plane press, sagittal plane press and rotational press. Drop-down seat for enhanced training options in the standing position
Assisted adjustments	Yes, gravity assisted
Color coded pivot points and adjustments	Yes
Unilateral or bilateral movement	Yes, Unilateral or bilateral use user defined
Converging or diverging movements	Yes, user defined
